The **Hoogee's Loop** is not quite 6 Miles. Walkers should consider leaving at 6:00 rather than 6:15 PM and those that have not reached the Mt. Wilson trail junction by 7:00 PM, should turn around and come back - fast walkers should do the whole loop in 1.5 hrs. Fast runners reaching Hoogee's before 7:00 PM can add the First Water Trail from Roberts Camp if desired. The clock-wise run is shown on the map and has all right turns at trail junctions. From the Upper Parking lot, go west up the paved road past the gate. Watch for the Upper Winter Creek Trail head sign on your right at a left hairpin turn about a quarter mile up. There are about 10 stream crossings as you descend down the Lower Winter Creek trail, most are rock hoppable.
